LEASING

INVEST WITHOUT  
TYING UP YOUR CAPITAL

WE FINANCE YOUR BUSINESS

## GOOD CHOICE. LEASING INSTEAD OF BUYING

The competition never sleeps. Companies that want to keep up with the market need to invest in their infrastructure. The question is: purchase or finance? With GRENKE's leasing solutions, it's an easy decision as purchasing equipment ties up capital that can be invested elsewhere. In pioneering strategies, in employees or in business premises.

If you decide leasing is the best option for you, just ask your equipment supplier. They will explain how leasing will benefit your business, and you can select the items you require. It doesn't matter whether the value of the equipment is considerable or on the smaller side.

Your equipment supplier will then handle all of the processing and submit the leasing request to GRENKE. In addition, they will continue to be your contact when it comes to service, guarantees and warranties. You will receive the leasing contract from your equipment supplier. After signing it, they will supply the desired items, which you will then use for the duration of the lease term, and you pay affordable instalments for them. At the end of the lease, you decide whether to return it or extend the term.

Leasing with GRENKE gives you more flexibility and liquidity, which will undoubtedly benefit you.

### LIQUIDITY FOR GREATER FREEDOM

### YOUR BENEFITS AT A GLANCE

#### INDEPENDENCE

Instead of having credit lines at your bank or on your own balance sheet under strain, you retain liquidity for further investments.

#### PLANNING SECURITY

Spread your acquisition costs over the life of the equipment and pay the instalments with the income you generate from using the equipment.

#### FLEXIBILITY

Use the latest equipment and do not tie your capital to equipment that depreciates quickly.

#### SERVICE

Your reseller handles all of the formalities and processes the leasing request with GRENKE.

## SUNNEN CLOSE TO YOUR COMPANY AND YOUR PRODUCTION

Sunnen is the leader in precision bore sizing systems worldwide. When you choose the "Sunnen Solution", you get the honing machines together with best cutting abrasives, high performance honing oils, coolants, toolings and precision bore gages. Either as manual standalone machine or fully automated, the Sunnen solution fits best into high demanding production processes – working to satisfy your specific production needs. With over 90 years of experience, Sunnen provides precision bore honing solutions for an incredibly wide range of industries and applications.

Our global network and the industry's largest selection of honing machines – horizontal or vertical, single or multi-spindle, standard or customized – allows us to be close to you and provide the appropriate solution in every country worldwide.
